

Signature

Get documents signed 3x faster, even with crew on the move

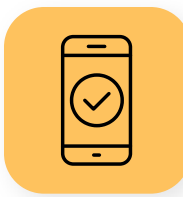

8 different documents, on average, need to be signed by every new hire. LASSO saves you time, effort, headaches, and paper cuts on every single one.

Fully Automated Process

No more paperwork. Streamline the onboarding process and keep new hire docs organized.

Mobile Access

Crew members can sign docs right on the LASSO app. So you can onboard them no matter where they are.

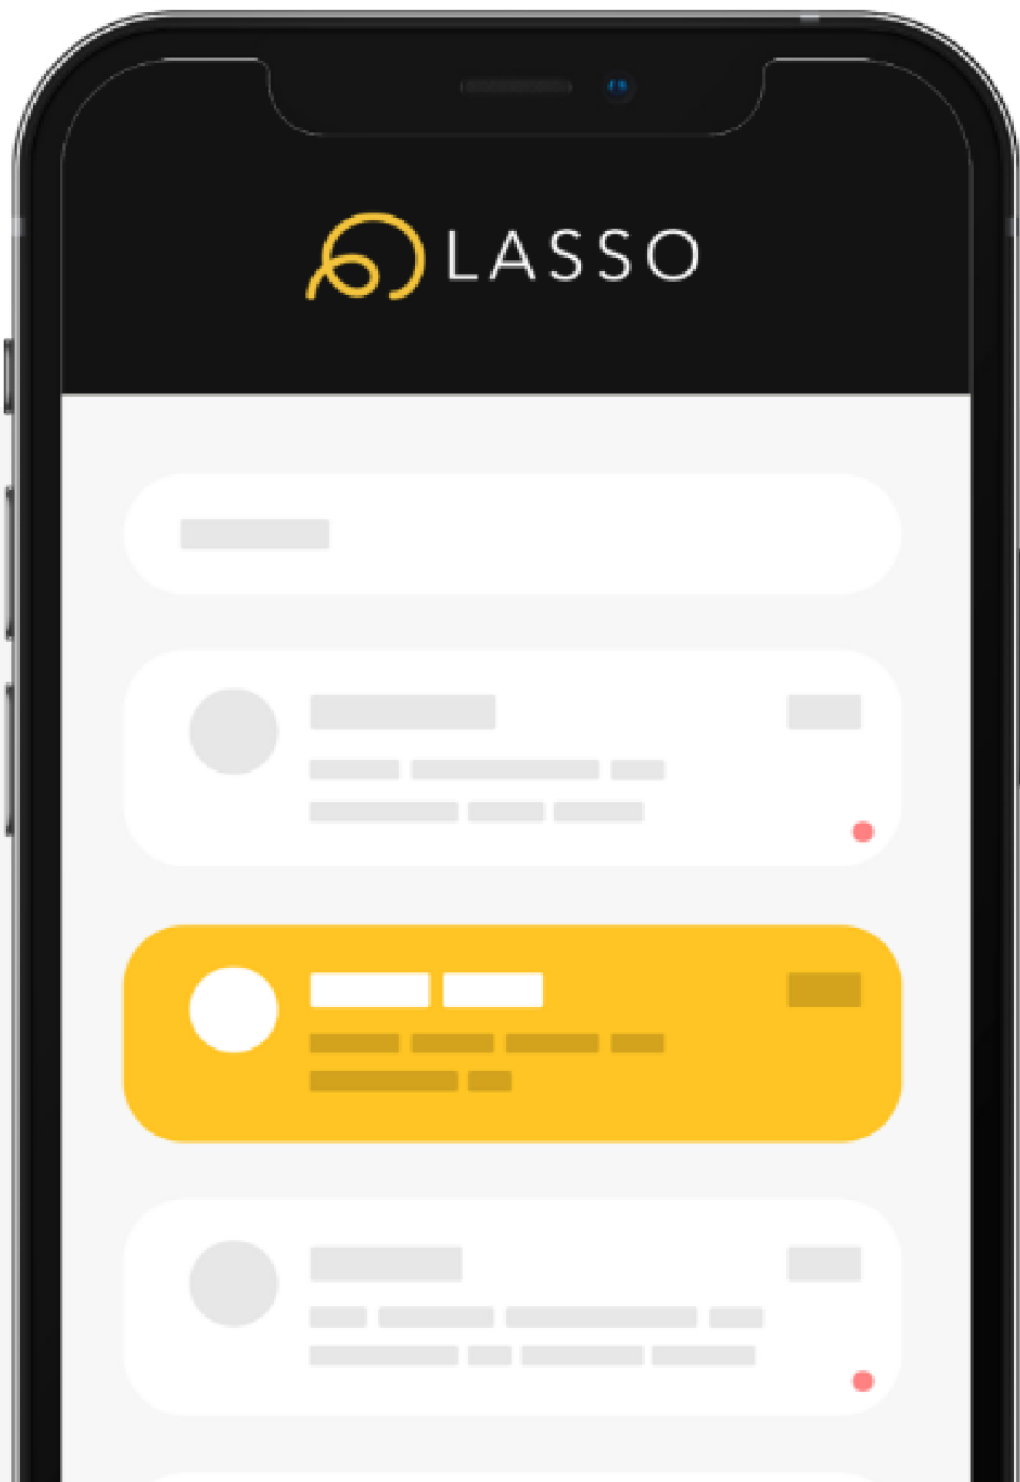

Secure Storage

All signed documents are stored within LASSO so you never have to hunt for forms again.

“No other software compares to the capabilities of LASSO. I’ve worked with so many applications and they all fall short. Worth it!”

— Mel Baglio, Operations Manager, AV Chicago
