

Travel

Book 8x faster while giving your crew a first-class experience

10 hours are spent booking travel for crew every month on average. LASSO automates all of it and instantly confirms with your crew, saving you time, money, and stress.

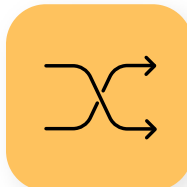

Smarter Travel Decisions

At-a-glance insights show you the best crew to travel. Plus, see your true total before booking, get negotiated rates, and save unused tickets.

Schedule in Bulk

Easily book your entire crew's trip in one go without leaving the platform. We automatically fill in travel preferences, rewards numbers, and other details, saving you minutes on each entry.

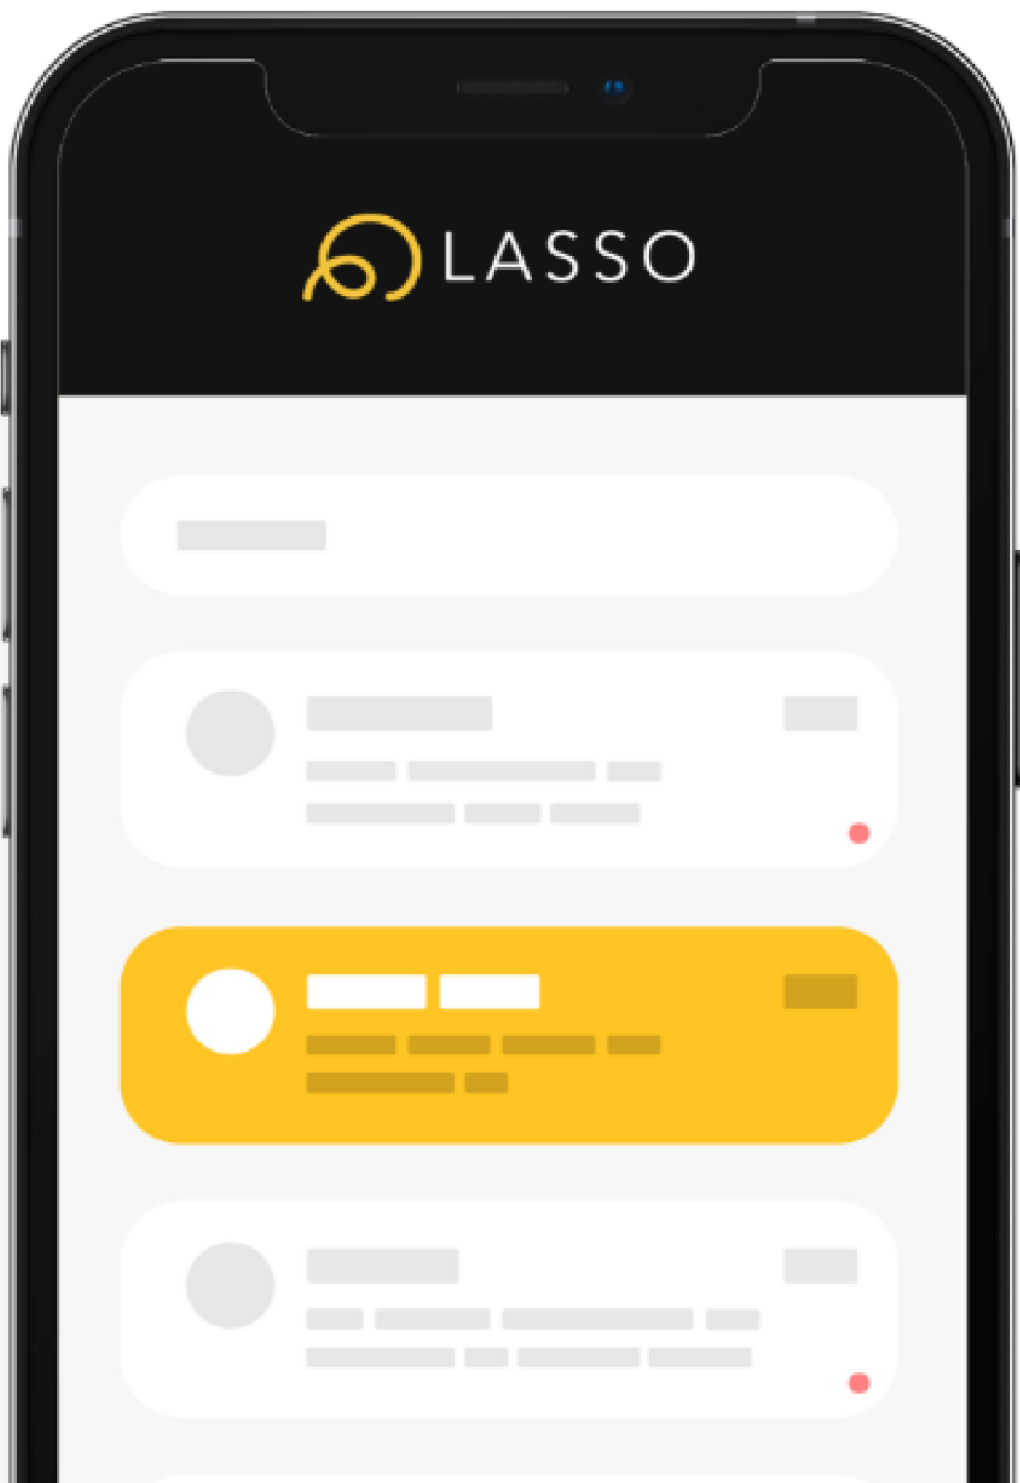

Itineraries Sent Directly To Crew

Ditch the chaos of emailing trip details to each crew member. Our automated itinerary feature does that for you upon booking. No more miscommunications; no more frustrated crew.

"No other software compares to the capabilities of LASSO. I've worked with so many applications and they all fall short. Worth it!"

— Mel Baglio, Operations Manager, AV Chicago
